(Associated Press Telegram)
Manila, June 12.—The entrenchment of the rebellious Moros under the Sultan at Bagasab was taken by the American forces today after a fierce battle in which the American casualties were six killed and 12 wounded.

The killed were two privates of company M, United States infantry, three members of the 51st company of scouts, and one member of the 29th company of scouts. Lieutenant Edwin H. Rackley was wounded in the leg. The casualties are regarded as few in view of the stubborn resistance which the Moros made to the American advance.

The attacking forces had been made up unusually strong as a precaution, there being in addition to the company of regular infantry, a troop of cavalry, seven companies of scouts, two companies of constabulary with a battery of four mountain guns and a gun platoon.

The main position of the Moros was completely taken. Although there remains one point still occupied in the mountain, the mountain guns will be in position to shell it easily.

Brigadier General John J. Pershing, commanded the department of Mindanao, who led the forces declares he will continue the operations in Jolo until all the tribesmen's guns have been taken and the island is wholly peaceful.

SUPERINTENDENT OF
GALLIA INFIRMARY

(Associated Press Telegram)
Balliopolis, O., June 12.—Officers who have been serving subpoenas in connection with the investigation of the Gallia county infirmary by a special grand jury drawn for that purpose said today that they were unable to locate Superintendent Harry Womeldorf of that institution. It is said that Mr. Womeldorf has not been seen since yesterday.

State examiners spent about a month making the investigation which resulted in the calling of the special grand jury.

U. P. Would Dispose Of
S. P. Stock To Pennsy By
Taking B. & O. In Exchange

(Associated Press Telegram)
St. Paul, June 12.—Attorneys for the Union Pacific presented at the opening of the merger dissolution hearing today, a new plan for the disposition of \$33,000,000 worth of Southern Pacific stock to the Pennsylvania railroad in exchange for \$21,000,000 worth of Baltimore and Ohio stock.

Court adjourned without announcing a decision in the Union Pacific dissolution matter.

The new proposal was supplemental to the two plans recently submitted. The amount of stock involved in the exchange represents only fourteen per cent of the total Southern Pacific stock. The present holdings of the Union Pacific in Southern Pacific in common stock represents about \$126,000,000.

N. H. Loomis of counsel for the Union Pacific explained the proposition to the court. He said that as a matter of fact the Union Pacific and the Southern Pacific were in reality as distinct as they ever could be; but the supreme court had ordered the Union Pacific to dispose of its Southern Pacific stock and the former road was doing its best to accomplish this on the best possible terms to its stockholders. He said that the Union Pacific did not guarantee to carry out either of the two principal plans proposed even though the court approved both of them. If it should be found that to follow either of them would involve too great a sacrifice to the Union Pacific stockholders the disposition of the stocks would be left to the court.

Attorney General McReynolds, in opposing the plans proposed by the Union Pacific, said that he regretted that the railroads had been unable to

750 OHIO VETERANS
PREPARING FOR THE
GETTYSBURG TRIP

(Associated Press Telegram)
Columbus, June 12.—Adjutant General Wood said today that he had received the names of 750 members of Ohio regiments who participated in the battle of Gettysburg and who will attend at the expense of the state the reunion of civil war veterans to be held in Gettysburg, Pa., June 30 to July 5. The number of old soldiers who have signified their intentions of attending the reunion is greater than was anticipated by the legislature when the bill authorizing the expenditure for their care and transportation was passed, but General Wood stated that an emergency appropriation would be made to make up any deficiency.

WEST POINT CLASS
GRADUATED TODAY

(Associated Press Telegram)
West Point, N. Y., June 12.—West Point's class of 1913—ninety-two Americans and one Cuban—was graduated today.

Standing on the campus, before the battle monument, Secretary of War Garrison pledged the young officers the same sympathy from the head of the war department as he urged them to extend to the enlisted men under them.

WILL INVESTIGATE
FOOD SERVED AT
THE GIRLS HOME

Columbus, June 12.—An investigation of the quantity and quality of food that is being served to the inmates at the Girls' Industrial Home near Delaware, O., was begun here today by T. E. Davey, president of the state board of administration. Complaints have been received by the board members that the food served at the institution is inferior to that served in other state institutions.

FREE WOOL AND
SUGAR ADOPTED
BY COMMITTEE

(Associated Press Telegram)
Washington, June 12.—Free raw wool immediately and free sugar in three years as endorsed by President Wilson and adopted by the house were approved today by the majority members of the senate finance committee. The action sustaining the administration on both schedules was taken after amendments to alter them had been voted down.

Republican leaders in the senate are working hard in preparation for their fight against the Democratic tariff bill now being rounded into shape for debate.

Senator Penrose, ranking Republican member of the finance committee is to lead the opposition on the floor after the bill is reported. The measure probably will not reach the senate until June 30. Senator Smith, of Michigan, is preparing to lead the fight against the sugar schedule and Senator Smoot will command the anti-free wool debate.

Senator La Follette, who has amendments which amount practically to a new bill, plans to make a speech that will extend over a week. Others who are preparing long tariff arguments include Senators Borah, Cummins, Weeks, Lodge, Root, Burton, McCumber and Gallinger. The minority members of the finance committee are already at work on their report.

effect a deal whereby the Union Pacific would acquire the Central Pacific, operating from Ogden to San Francisco, in exchange for its Southern Pacific stock. He declared that this failure would compel the government to institute an expensive litigation to compel the Southern Pacific to relinquish its hold over the Central Pacific.

Philadelphia, Pa., June 12.—Pennsylvania railroad officials confirmed the statement that an arrangement had been entered into to exchange the company's holdings of Baltimore & Ohio railroad stock for \$33,000,000 worth of the Southern Pacific stock owned by Union Pacific. It was stated that the exchange, if approved by the court, would be made on the basis of the relative market value of Baltimore & Ohio and Southern Pacific stocks.

In financial circles the deal is looked upon as a relinquishment by the Pennsylvania of all interest in the Baltimore & Ohio company.

New York, June 12.—Wall street had been hearing for some time of a plan to offer part of the Union Pacific's holdings in Southern Pacific to the Pennsylvania road for the latter's holdings in Baltimore & Ohio. Local representatives of the Pennsylvania, however, disclaim any idea of the establishment of a trans-continental road should the Southern Pacific stock in question be acquired. It was pointed out that even were this desirable, the physical means would still be lacking. Pennsylvania's farthest western connection, even through its leased lines, is many hundreds of miles away from the Southern Pacific's nearest eastern point.

Sugar.

(Associated Press Telegram)
Washington, June 12.—Truman G. Palmer, Washington representative of the United States beet sugar industry testified today before the senate lobby investigating committee that a series of charts, prepared by him and published at public expense as a senate document had attained a circulation of 320,000 copies under the franking privilege of Senator Lodge.

The charts first appeared in the senate during a speech Mr. Lodge made last July. Chairman Overman and Senator Reed developed in cross examining Palmer that after Mr. Lodge had secured permission of the senate to print the documents, Palmer had got a proof from the government printing office and somewhat revised them. The two senators seemed intent to show that as representative of a private interest had been allowed to change something the senate had ordered printed.

Chairman Overman announced however that officials of the government printing office would be summoned to tell how such a document had been sent to private hands for requisition and that if Senator Lodge wished to testify he would be allowed to do so.

"The mailing of this document I find would cost five cents," said Senator Reed to Palmer, "and you, therefore, saved \$16,000 for your employers."

"I'm very glad to know it," replied Palmer.

(Associated Press Telegram)
Washington, June 12.—Members of the senate lobby investigating committee planned to hold the investigation more strictly to the scope of the senate's instructions, when the hearings were resumed today. The reference to President Wilson's attitude upon the sugar tariff and the frequent clashes between witnesses and committee members, which characterized yesterday's session, led Chairman Overman and other members of the committee to attempt to hold the testimony strictly to the question of whether insidious lobbying is being carried on in Washington.

Several witnesses connected with the Louisiana sugar planters campaign against free sugar were ready to be heard when the session opened. The committee expected to take up the other side of the "sugar lobby" question before the end of today and to begin examination of men identified with the publicity campaign in favor of free sugar.

Jules Godchaux and E. F. Dickinson two of the Louisiana planters who testified before the committee yesterday, said that only \$7,300 had been raised thus far by the sugar interests to finance the Washington fight against free sugar.

Paul Christian secretary of the Louisiana sugar planters offices in Washington first witness today testified that all industries in Louisiana with which the sugar men were in touch, were requested to join in writing to President Wilson.

Washington, June 12.—A searching investigation into financial operation of the St. Louis and San Francisco railroad system in response to a resolution of the senate is to be undertaken by the interstate commerce commission at once. The inquiry will go deeply into relations of the Frisco lines with the Chicago, Rock Island and Pacific, lay bare inside facts concerning the purchase of the Chicago and Eastern Illinois and develop those pertaining to leases by the Frisco subsidiary roads.

The resolution directing the inquiry was introduced by Senator Kenyon and passed by the senate Tuesday. Prior to this the commission had under consideration the matter of instituting an inquiry on its own initiative. Its authority so to do was unquestioned but in view of the litigation over the receivership of the Frisco lines and the disaffection of the commission to inject itself volun-

tarily into a situation that already was in the hands of the courts, it was deemed wiser to await affirmative decision either by the senate or house of representatives or both. Immediately after receipt of official notice of the passage of the Kenyon resolution the commission set its machinery in motion.

Preliminary work was begun yesterday in New York City by agents of the division of carriers accounts acting by direction of Commissioner Harlan, who is in charge of that branch of the commission's work.

The inquiry will deal with all operations of the Frisco lines since the re-organization of the system in 1896. That will include its relations with the Rock Island, its purchase of the Chicago and Eastern Illinois with what are regarded as the "peculiar" phases of that deal; and with the acquisition by the Frisco of leased lines at rentals which are declared by those familiar with them to be extravagant and unwarranted.

CLARK W. CHAMBERLIN
IS ELECTED PRESIDENT
DENISON UNIVERSITYProfessor at Vassar is Made Head of Baptist
School at Granville But Acceptance
Not Yet ReceivedVacancy Caused by Miss Loveridge's Resignation Not
Filled—Nearly Seventy Students are Graduated
—Commencement Season Comes to a Close.

(Special to the Advocate)
Granville, O., June 12.—Clark W. Chamberlin of Vassar college, has been offered the presidency of Denison University to succeed Emory W. Hunt, resigned to accept the secretaryship of the Baptist Missionary Society. Dr. Chamberlin's acceptance has not been received but those close touch with the situation feel confident that he will become Dr. Hunt's successor.

The election of Dr. Chamberlin did not take place until after he had left Poughkeepsie and had started upon a tour to Europe. This accounts for failure to make a definite announcement today.

Towards the close of the morning program today Chairman Peters announced the action of the board in choosing Dr. Chamberlin and stated that he was the unanimous choice of the board.

The following announcements were also made today:

Dr. Lawton head of the department of physics has resigned and Mr. C. D. Coons present assistant professor, has been elected to succeed him as professor of physics.

To Professor Geo. E. Coghill a year's leave of absence has been granted, and Prof. Albert W. Orcutt of the University of Illinois has been selected to take his place as substitute professor for the year.

The title of assistant professor of history has been given to Mr. Irvin Stoddard Kull who has been instructor in history the last year.

The resignation of Miss Blanch G. Loveridge, dean of Shepherdson college was presented and accepted at the spring meeting of the board of trustees.

The committee having the matter in charge of making a selection for this position is not ready to make a final report but is anticipating filling this position before the opening of the fall term.

Miss Laura B. Parsons, head of the department of art, has resigned. Her successor will be appointed before the college opens in the fall.

Clark W. Chamberlin to whom the presidency of Denison University has been offered, now holds the chair of Physics in Vassar college, Poughkeepsie, N. Y.

Dr. Chamberlin, who received the degree of Ph. D. from Columbia University, is a scientist of world-wide reputation, a scholar, an educator and a man of splendid personality. He was one of the two men most favored by the Denison alumni and his election is pleasing news to hundreds of former Granville students.

Dr. Chamberlin was graduated from Denison university in 1893. In college he ranked high as a student and had the honor of winning both the state and the interstate oratorical contests. His brother, John, 1898, now an attorney in Cleveland, also won the state contest. From 1900 to 1903 Dr. Chamberlin was professor of Physics in Denison university, afterwards accepting a chair at Vassar.

A few years ago he attracted much attention by his invention of a compound interferometer, the finest measuring instrument known to science. It measures distances and angles through wave lengths of light. This scientific invention brought recognition from the federal government.

Dr. Chamberlin is married and has four children. He is a member of the Phi Gamma Delta college fraternity.

COMMENCEMENT
EXERCISES OF
UNIVERSITY

Granville, O., June 12. The eighty-second annual commencement of Denison University was held here today, the weather being all that could be desired for the event which always brings this historic and beautiful little hamlet into prominence.

The town was crowded with visitors all eager to participate in the festivities of the day. All this week the hotels and lodging houses have been crowded with members of the alumni, college men and notables from all over the country who greatly enlarged the population of the village and added their dignity to the episodes of commencement week.

At 10.15 Thursday morning the procession headed by the college band and directed by Mr. Karl R. Babb set out for the exercises.

AT TODAY'S SESSION

(Associated Press Telegram)
Baltimore, Md., June 12.—The presentation of reports from commissions and committees, to be followed by an open parliament for the discussion of matters affecting the futures of the organization were the principal features on the program for today's meeting of the convention of the Associated Advertising clubs of America here today.

Harmony was the keynote of all the reports. That of the commission on divisional work went deeply into plans for carrying out the ideas adopted by the convention and urged hearty co-operation among the various divisions.

BRAKEMAN HURT
AT PATASKALA
THIS MORNING

B. & O. Brakeman James McGee was probably fatally hurt at Pataskala Thursday morning.

Mr. McGee was coupling a train at Pataskala when he slipped and was caught between the cars and badly crushed. He was brought to Newark and taken to the Newark sanitarium in Bayler & Bradley's ambulance. He had a couple of ribs broken and probably sustained internal injuries. Dr. Homer J. Davis is the attending physician.

Before starting for the hills, the committee heard one witness on the subject of interference with the postal service. John Goldsborough told that his letters had been opened at the High Coal postoffice in the boomier mine field. No further witnesses were on hand and the committee adjourned to prepare for the trip to the mines.

Down from the sunbaked hills of West Virginia today came a hundred brawny coal miners, to tell the senate mine investigating committee how their home country was transformed into a theatre of civil war. They thronged the lobby of the hotel where the committee held its hearings, awaiting the disposition by the committee of Governor Glasscock the star witness of the day.

Governor Glasscock was chief executive of the state when the mine workers struck on Paint Creek and Cabin Creek. The failure of former Governor Glasscock to reach Charleston today resulted in the disarranging of the senate mine investigating committee's program and preparations were made immediately for the trip to the mines which had been planned for later.

Vogelmeier Cab Struck
by Pennsy Limited Train
and Driver Loses Left Leg

Rollin J. Carter, 30, employed as a cab driver for Phil Vogelmeier's transfer company, suffered the loss of his left leg and a broken collar bone, barely escaping with his life, when his cab was struck by Pennsylvania limited passenger train No. 45, at the Second street crossing on Thursday morning at 8.21 o'clock.

It is believed by witnesses that Carter was endeavoring to avoid an east bound Pennsylvania freight train when he drove onto the tracks in front of the west bound passenger train. Alex Barer, flagman at the crossing, and other witnesses, declare he tried to warn Carter to stop his team.

Fortunately no passengers were in the cab which Carter was driving when he was struck. According to witnesses, the cabman was driving south on Second street and on passing the front of the Gas Kern restaurant, he sighted the freight train approaching near the crossing from the west. It is believed he thought he could beat the freight to the crossing. When he found himself directly in the path of the passenger train, Carter swerved his horses to the west, intending to drive on the station platform to avoid the

AUTO TURNS TURTLE; FOUR HURT

Late Thursday afternoon an automobile driven by Clarence (Buster) Bowman, belonging to the Sigler garage, overturned on the Granville road, three-quarters of a mile west of the Country Club, and the occupants of the car were thrown out and badly injured, the chauffeur, "Buster" Bowman, being the only one to escape unhurt.

Wallace Davidson was cut in the forehead. He went to Granville, where his injuries were dressed by Dr. Loveless.

William Meeker, an employee of the Sigler garage, had his head cut and his right knee badly injured.

H. C. Serodino, of the Sample Shoe Store, was somewhat hurt, the extent of his injuries not being determined.

Joe Copper, an employee of the Bismark Cafe, fractured the right leg. The men were rushed to the Newark Sanitarium, where Drs. P. R. Cosner and D. M. Smith attended them. It is said that a tire burst just before the car overturned.

Charleston, W. Va., June 12.—Five United States senators today started back into the West Virginia hills to view the "battlefields" of the coal strike on Paint Creek and Cabin Creek. The failure of former Governor Glasscock to reach Charleston today resulted in the disarranging of the senate mine investigating committee's program and preparations were made immediately for the trip to the mines which had been planned for later.

A special train on the Chesapeake & Ohio railroad was provided and an itinerary was arranged which includes all of the principal mines on both the Paint Creek and Cabin Creek spurs of the railroad.

Before starting for the hills, the committee heard one witness on the subject of interference with the postal service. John Goldsborough told that his letters had been opened at the High Coal postoffice in the boomier mine field. THE ONE PER CENT TAX LAW.

Former Governor Harmon while in office took the position that if the people are to receive the full benefit of the Smith one per cent tax law there must be something done to improve the method of making valuations of property for taxation. To bring this about the Edwards bill providing for the appointment of tax assessors in every county was introduced in the general assembly two years ago. It was defeated.

In speaking of that action, the former governor said:

"The unfortunate defeat of the Edwards bill has prevented the full enjoyment of the results in view under the Smith one per cent tax rate law. The work of the elective ward and township assessors in Ohio has proved a failure as it has elsewhere. These great manufacturing concerns, these great mercantile establishments and other large business institutions, which have large credits of various sorts, can hide and many do hide what they have. The Edwards bill is the key to the situation. That bill proposes to substitute for these and for city boards of review a deputy tax commissioner in each county to act under the direction of the state tax commission, with power to appoint necessary assistants."

The Warnes bill is a replica of the Edwards bill. It is a bill designed to prevent men with the largest property holdings and the most influence in getting the lowest valuations. It was enacted to prevent the farmers and small home owners paying more taxes in proportion to the value of their property than owners of great wealth paid. This was the case with elective assessors making valuations, for many favored those who could do the most good on election days.

Students of taxation everywhere agree that it is impossible to get an honest appraisal of property for taxation with elective assessors doing the work. They are too much under local influences, and in such cases the men best able to pay are favored, while the people to whom taxes are more or less a burden, are compelled to pay exorbitant sums. Tax experts all agree that honest valuations can be obtained under the appointive tax assessor plan, with the men under no obligation to property holders for their positions and with no tax payer having a special influence with the assessor.

Uncle Walt's Philosophy

Despondency

I sometimes think when I am tired of writing dippy verse, that naught to which I have aspired is worth a tinker's curse. I look around with gloomy eyes, in these my doleful moods, and everything beneath the skies seems bargain counter goods. "All men are false, all women fierce," I cry, with scornful jeers, and then proceed to shed a tinge of effervescent tears. "There's nothing permanent but woe, and that's a cunch," say I. But when I stop to think a while, this fact comes home to me: my system is too full of bile. I need some home-set tea. And while I drink about six quarts, this life seems a delight, my liver actively cavitates, my stomach working right. And then all men and women, too, seem lovely and serene; and thus, perchance, it is with you, oh specialists in spleen! You roast this good old merry globe and make the swear words buzz, and think you're harder up than Job, the gentleman of 17; you cry alackaday! alas! and rend your tearwet garb, when all you need is sassafras or 'other useful yarb!

—Uncle Walt

ON SECOND THOUGHT

The ideal age is 70. When a man is 70 he not only knows that he is through, but has become reconciled to it. Youth and middle age are always perturbed by the problems of life.

A man's age is indicated by the family bible and the back of his neck.

The only thing you can tell about a young girl is that when she is 50 years old she will look a great deal as her mother looks now.

That there are seven days in the week is a generally accepted fact. But pretty nearly every other established truth is disputed by somebody.

Up to the time a man is fifty he plays for high, low, jack and the game. After that he is satisfied if he saves his jack.

The title of "Colonel" is the unalienable right of Southerners and auctioneers. Others must earn it in some way.

As a general proposition, the less a man has the more children he feels able to afford.

It is only after a man becomes rich and famous that you recall the fact that you and he were schoolmates.

The professor who believes courting should be taught in college apparently overlooks the fact that it already is an elective course in all of the best schools.

Wisdom from Washington

By ARTHUR W. DUNN.

Washington, June 12.—[Special.]—It looks as if the independence of the Philippines were assured, with four Democratic declarations in national conventions in favor of that program and the casual endorsement President Wilson has given the Jones bill. Of course it is no easy matter to pass a bill of that kind through the senate with the small majority which the party in power has.

Should it happen that a few Democrats are opposed to the policy of giving the Filipinos independence it would be found an easy matter to sidetrack a bill for that purpose, even if it were backed by the president; but more than that, a Republican filibuster might prolong the debate far beyond the endurance of the desire of those who wanted to put the bill through, and it could be defeated in that way.

Cannot Control the Future.
There is another fact which should not be overlooked. The proposal as contained in the Jones bill is to allow the Philippines independence in eight years. In that time four different congresses will have been elected, two more presidents chosen, and it is quite possible that the congresses hereafter elected may be Republican, in which event they would have power to repeal the independence legislation.

Of course it would be difficult to repeal such a program, especially if the Filipinos became dead in earnest and insisted upon self government. No doubt it would mean another insurrection. But whatever may happen in the future there seems no doubt that a very strong effort will be made to grant independence to the Filipinos during the session of the Sixty-third congress.

Use of the Mails.

Very frequently it is asserted that the use of the mails of the United States is a privilege conferred by the government and not a right. That is a curious reasoning. The people pay for the use of the mails. They pay for the operation of the government, they pay for an army and navy to protect the government and they pay

NEWARK U. C. T. BOYS ATTEND CONVENTION

A special coach attached to north-bound train No. 17, leaving Newark over the B. & O. Thursday morning accommodated more than a hundred United Commercial Travelers, representing the councils of Newark and Zanesville enroute to Mansfield to attend the annual state convention. The delegation was accompanied by the Seventh Regiment Band of Zanesville in full regalia. The band will march at the head of the two delegations in the monster parade to be given as a feature of the convention. Many of the commercial travelers were accompanied by their wives.

Mansfield has made great preparations to entertain the thousands of guests expected and the city has been placed in gala attire for the occasion.

WEALTHY COUPLE IN SWITZERLAND END THEIR LIVES

(Associated Press Telegram.)
Zurich, Switzerland, June 12.—Eugene Maggi, and his wife, believed to be the wealthiest persons in Switzerland, committed suicide today, their desperate act being actuated by lack of interest in life. Eugene Maggi was only 41 years old and his wife 35. The joint estates of the man and wife were estimated some time ago at \$10,000,000 while quite recently Maggi inherited the income from a number of extensive factories.

The couple had been married for a number of years, but were greatly disappointed because their union had remained childless. Last night in a fit of despondency they decided to end their lives. They retired to their bedroom in their villa here, turned on the gas and were found dead in the morning.

Which is Better—Try An Experiment or Profit by a Newark Citizen's Experience?

Something new is an experiment. Must be proved to be as represented.

The statement of a manufacturer is not convincing proof of merit. But the endorsement of friends is. Now suppose you had a bad back, a lame, weak, or aching one. Would you experiment on it?

You will read of many so-called cures. Endorsed by strangers from far-away places.

It's different when the endorsement comes from home. Easy to prove local testimony.

The Human Procession

"Society is an ass," declares Sir Oliver Joseph Lodge, the great English scientist. This is only a polite way of saying that in Sir Oliver's opinion, which is not without weight, we, as social units, are related to the jacks. And yet Sir Oliver is so amiable, charitable and hopeful in his expression of unflattering estimates of humanity that one readily forgives him and is even inclined to admit the truth of his accusations. The eminent savant will receive the congratulations of his colleagues of the British Association today, this being the sixty-second anniversary of his birth.

Sir Oliver is one of the few great scientists who entertain a faith in immortality, although his views on that interesting subject are hardly in accord with orthodox Christianity. He inclines to a belief that there is some basis of fact in the idea of pre-existence—not an obvious truth and one to be set forth in a formula, but a truth that defies accurate description and is not to be identified with the popular notion of reincarnation.

Sir Oliver's views in the questions that confront humanity, as expressed in "Modern Problems," are interesting and thought-provoking. He sees society just barely emerging from the stage of ruthless and savage competition today, and that substantial progress will be impossible till they are got rid of. Sir Oliver would substitute some sort of co-operation or socialism for

the present system, but on this point he is not very clear. He points out what the trained, scientific mind would suggest as a substitute for competition, but adds, "That society should allow itself to be ridden by a monopolist only shows that society is an ass." For all that, he has hopes for us. With the growth of the trust movement, continuing until industry is concentrated into the hands of one group, humanity will become aroused. "When an abuse has only one neck it is not difficult to deal with."

Although to some extent a socialist, Sir Oliver does not march in the Marxian procession. He wears no tag or label of party or creed. He is a man without superstitions, and is as ready to criticize the "superstitions of science" as any others.

Grandpa Bought Some Fireworks

Daddy's Bedtime Story

Their Fireworks Were Ahead Of Time.

FIRECRACKERS are out of style, so daddy told Jack and Evelyn when they begged for some with which to make lively the Fourth of July. "We may have a few," daddy said, "but we don't want to scare the neighbors too much."

"I don't see how they could be scared," Jack urged. "They know we would be very careful."

"Ah, do they?" daddy answered, smiling. "That is very nice. Little Sammie Simpson was one of the very careful boys."

"Firecrackers were not the fashion in the town in which he lived. So the summer he went to visit his grandfather and grandmother he begged so hard to be allowed plenty of them that the old folks at last agreed."

"They had a large place, with no neighbors very close to them, and so when grandpa went to town he got some of the very largest firecrackers he could get. He also bought plenty of rockets and roman candles and colored fire for the evening."

"Grandma did not want them in the house, so grandpa put them in the shed, which was used for the storing of rubbish. Grandma felt uneasy about having them there, although it was quite a distance from the house."

"Sammie could hardly wait for the Fourth to come. He teased and teased just to be allowed to try one little cracker. So the evening before the Fourth grandpa said, 'Well, as tomorrow is the Fourth, I suppose we might try one of those rockets.'"

"Grandma groaned. 'You'll be very, very careful,' she warned. 'You know it's a good while since you've sent up any rockets.'"

"Grandpa laughed boyishly. 'As if I could ever forget how to send up rockets,' he answered."

"Grandpa and Sammie went out to the little shed in which the fireworks were stored, and grandpa picked up a rocket. He took it out into the yard and set it up. Now, you know, a rocket must be set into the ground very straight if you want it to sail up to the sky, perhaps grandpa was right. Grandpa was a little out of practice. At any rate, when lighted that rocket sizzled and sputtered and with a sideways dive curved over and went straight into the door of the shed where the fireworks were. The floor was covered with shavings, and in a minute there was a display of fireworks such as had never been seen around there before. The fire company came to put out the fire, and there was a lively time for a little while. The shed was burned down, but no one was hurt except grandpa, who blistered his hands and face."

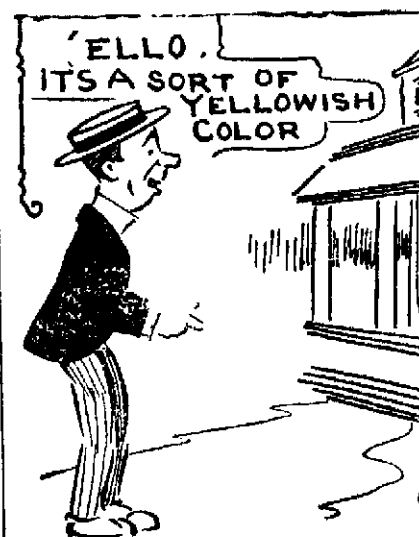

"The next day was the Fourth, and Sammie had no fireworks. 'And I guess I don't mind any,' he confided to grandpa. 'We had plenty of fireworks last night.'"

First Things

The first railway in Japan was formally opened forty-one years ago today, the Mikado and prominent officials taking part in the ceremonies. The introduction of this method of transportation was viewed with superstitious awe by the ignorant populace, but their fear and wonder gave way to a general recognition of the value of the innovation. During the following twenty years all Nippon was girded with steel rails. Japan now has a total of about 5,000 miles of railways, built at a cost of about \$200,000,000 or about \$40,000 per mile. This is much less than the average cost of railways in America and Europe, and more than a third less than the cost of construction of the railroads of the United States and Canada.

TORTURED BY UGLY ITCHING ERUPTION

Doctor Recommended Resinol. Half of a 50c Jar Cured It.

Baltimore, Md., Nov. 5, 1912.—"My little daughter was taken with a very small spot on the back of her hand. It grew larger and caused her more trouble. When she would scratch it, it would bleed and get very ugly looking, so I doctored it myself for about a year, and at last it broke out on both knees, and when she would go to bed she would scratch, and was so tortured and suffered so from the itching, that I took her to our doctor, who recommended Resinol Soap and Resinol Ointment."

"I sent for samples and after the first application the itching and inflammation was improved, and I kept it up night and morning, and by the time the sample was gone she complained very little, so I got a fifty-cent jar, and before that was half gone the trouble had entirely disappeared." (Signed) Mrs. Maude Schmechel, 2737 Presbury Street.

Resinol is speedily effective for itching, burning eruptions, pimples, dandruff, burns, old sores and piles. Sold by all druggists. For free samples write to Dept. 15-M, Resinol Chem. Co., Baltimore, Md.

PHILAN-UNDERLINER.

One of the prettiest of June weddings was solemnized on Wednesday morning, June third, at St. Patrick's church, Danville, Ill., when Miss Clara Magdalene Underliner, daughter of Mr. and Mrs. August Underliner, and William Bernard Philan of Newark, O., were united in the holy bonds of wedlock. The ceremony was performed at 8 o'clock at nuptial mass by Rev. Father Parks, the ring service being used. The attendants were Miss Wanda Underliner, sister of the bride, as bridesmaid, and James A. Floyd of Newark, as best man. The bride's gown was of white embroidered voile, with a large white hat trimmed with plumes, and she carried a bouquet of white roses. Miss Wanda Underliner, the bridesmaid's gown, was of white embroidered voile over blue, she wore a white hat and carried a bouquet of American beauty roses. After the ceremony a wedding breakfast was served at the home of the bride's parents, the table having as a centerpiece a large wedding cake and other decorations were lilies, carnations and roses. The guests numbered fifty. Mr. and Mrs. Philan left on Friday for Newark, O., where they will make their home. Miss Underliner has for some time past been the bookkeeper for Dr. Rathbun of Danville, and is very popular among a wide circle of friends. Mr. Philan holds a responsible position with the B. & O. shops at Newark. Out of town guests at the wedding were: Mr. and Mrs. Joseph Ghuore of Newark, O.; Mrs. Rachel Kelly of Birmingham, Ill.; Miss Helen Bergfeld of Alton, Ill.; and Mr. and Mrs. Frank Smith of Indianapolis, Ind.

TODAY'S BEAUTY RECIPES

By Mrs. D. M. Mille.

"A good and inexpensive corrective treatment for faulty complexion, that lowness, pimples or blotches, is easily made at home by dissolving an original package of my soap in a half-pint of witch hazel. Dissolve using cold and face creams and gently massage this mixture over the face, neck and forehead each morning. It will protect against sunburn, tan and freckles, and prevent the growth of wrinkles. It makes the skin fresh and smooth, with the color of youth."

"A perfect shampoo is one that totally removes dandruff. When you can brush out dandruff scales the day after shampooing, your scalp has not been freed from the parasites that cause dandruff. Mother's Shampoo is the best dandruff remover. I know. It keeps the hair fluffy and full of life and color."

"Genuine beauty and charm is often married by superfluous hair. Be sure, safe and speedy hair remover is made by mixing a little powdered salicylic acid and water. Rub with this paste, leave on two minutes, wipe off, wash the skin and the hairs will be gone." (Adv.)

FOOT CAUGHT IN WAGON WHEEL; BADLY INJURED

"You can't catch me," cried Mildred Bucy, daughter of Mr. and Mrs. Harry Bucy of East Newark, as she bounded into an empty wagon while her companions were pursuing her in a game of tag on Tuesday evening at her home. Her playmates tumbled into the wagon after her and in the frenzy of her play Mildred jumped from the wagon.

However in jumping her foot caught in the wheel and she was thrown with great force and remained suspended her foot not slipping from its hold. Her parents went to her assistance and the child was carried into the home and Dr. J. P. H. Stedem was called. It was found that the ankle was sprained and that the tendons of the leg were badly strained.

HOME TREATMENT FOR SALLOW, WRINKLED SKIN.

A. C. F. asked "What should I do for my sallow complexion and how can I get rid of my wrinkles?" Sallowiness is best removed by removing the skin itself. This is effectively accomplished by the use of our "Beauty's Mirror" skin cream, which causes the offensive outer skin gradually to peel off, in fine particles scarcely noticeable to the naked eye. Within a week so you will have an exquisite complexion. The new skin is shining, healthy, youthful and free from all blemishes with a soft, velvety texture. Get an application at night like cold cream, only don't rub it in. Wash it off in the morning with warm water. For your wrinkles try a solution of powdered salicylic acid, one ounce dissolved in a half pint with hazel. Bathe your face in this every morning for a week. The result will surprise you. Y. W. C. A. Notes

The Geneva talk interested many girls in the summer conference to be held at Lake Geneva, Wis., August 12-21. Newark expects to have a delegation of eight this year. The Board of Directors will hold their regular monthly meeting at the association rooms Thursday evening at 7 o'clock.

Special attention is called to the Glee club which will be started the last week of June, with Miss Marion Rose of Granville as instructor. This club will be free to any who wish to enter.

The Association tennis courts are now ready. Location, corner Locust and Second, fee \$1.00.

The Kibler cottage in the South End of town has been secured for the first three weeks of July as a summer camp for the Y. W. C. A. This camp will be open to all girls of the city at a very low rate.

Mrs. W. C. Miller and Miss Hazel Pettigrew visited Lancaster, O., Sunday and Monday in the interest of the new Y. W. C. A. of that city.

All girls under 16 who are interested in camp life are urged to be present Saturday, June 14, at 2 o'clock. Songs and Yells will be practiced for the camp fire to be held Thursday afternoon, June 19, at 7 o'clock at the children's home.

A Drink of Water

"SN'T it perfectly awful the time we are having about a drink of water," remarked the clubwoman to her friend.

"Eh!" exclaimed the friend. "Why I hadn't noticed. Nothing seems wrong with our water."

The clubwoman laughed. "Nor mine either, individually. It is just the universal drink of water that is in such a bad way. I suppose we'll come to carrying around canteens or bottles of sterilized water next, in order safely to quench our thirst. When I think how in the past I have recklessly drunk water here, there and everywhere, it is a wonder I am not a mass of disease."

The two women laughed. "It certainly is a wonder that the human race is not annihilated," agreed the friend.

"The very latest suggestion," went on the clubwoman, "is to carry straws such as are furnished at a soda water fountain."

"Another thing to carry," groaned the other woman, "and our handbags bulge now."

"We might have some sort of little case made on our dress to slip them into."

"Don't hope for it. If we can't get pockets, how can we get a case for a straw. Besides, do you suppose Paquin or Worth or even your dollar-a-day dressmaker would spoil the harmony of a gown by arranging to have a straw sticking out somewhere? They would rather you would contract leprosy. What is disease to style?"

"We might have some fancy tubes made to match our costumes."

"More expense!"

"Well, this matter of getting a drink does seem a serious problem. Doesn't it?" the clubwoman's face was gloomy.

"I thought those squirly drinking fountains had solved it."

"I detect them, don't you? I know now just how a horse feels when he drinks out of a trough. Only this is worse. For when you aren't expecting it, the water squirts all over your face and runs down your neck and splashes on the front of your dress, and you have to lay all your packages down on the pavement while you find your handkerchief."

"If the authorities will persist in making us drink from these squirly places, they might at least provide a table or bench to put our things on while we are undergoing the ordeal."

"Life is getting to be more and more difficult," moodily reflected the clubwoman. "Oh for the days of the wayside spring and the fragment of a green glass tumbler."

"But think what terrible risks you ran!" shivered the other.

"But I wasn't conscious of them. And so for me they didn't exist. And I was carefree and happy. But now, when I see a glass used by every body at some drinking fountain, I immediately have visions of all sorts of squirmy microbes swarming on it, and I feel quite sick. For my part, I think my other state was the better. A drink of water now is getting to seem like a deadly enemy, just waiting to slay me."

"Perhaps after a while," soothingly suggested the other, "science will provide us with tablets of hydrogen and oxygen that will answer the purpose of a drink of water."

"I think if science would provide us with a little less fear of things, it would be doing us the greatest service," responded the clubwoman.

STIFFENED HANDS
BECOME USELESS

**RHEUMATISM FINALLY STIFF-
ENS SUFFERER'S HANDS,
MAKING THEM USELESS.**

CURED BY UNITED DOCTORS.

**Distressing Kidney Ailment Added
to the Woes of Ailing Woman.**

The gravity of rheumatism is only
fully understood by the ailing suf-
ferer or the doctor of the patient, for
though every one understands the
painfulness of rheumatism, a great
many people are of the impression
that this serious disease is readily
curable.

Rheumatism is not readily curable—
far from it; indeed, it is one of the
most stubborn of ailments to treat
once it has obtained a thorough hold
on the afflicted one. When rheuma-
tism has gone so far as to enlarge or
stiffen any of the joints or bones the
case is usually considered well-nigh
incurable.

Feeling oneself gradually going
from the curable to the incurable and
finding no escape from this condition
after having treated with a number
of doctors, the sensation is anything
but one to bring happiness in view for
the future.

Facts are stronger than fiction; this
true saying is being demonstrated
nearly every day in scores of cases
at the United Doctor Institutes and
it is thus that sick people who have
failed of relief at every turn never
give up complete hope until they have
gone to one of these institutes where
they practice the "United" system of
medicine, that marvelous system of
treatment that "unites" the three
separate schools of medicine, viz:
Allopathic, Homeopathic and Eclectic
into one single course of treatment.
The average physician practices but
one of these three systems and is
therefore limited in his percentage of
cures to the one-third known medical
knowledge he is forced to practice as
taught him in his school of medicine
in which he was educated.

The following statement made for
publication will be of interest to sick
people illustrating as it does the great
curative powers of the United Doctors'
treatment even after all old style
treatments have failed.

Dayton, Ohio, May 28, 1913.

"For a year or more I have suffered
from rheumatism, dizziness and a
deadeness of the arms and hands.
With my other troubles I had a dis-
tressing kidney complaint and though
have tried many physicians I have
obtained no relief until going to the
United Doctors'."

"In honesty and truth I can now
state that though I have treated but
two weeks with the United Doctors my
condition has changed greatly. My
hands which were stiffened so that
they were practically useless are now
so I can use them freely. I walk with-
out any pain whatever; my kidney
trouble is very much improved. The
result of only two weeks treatment is
marvelous."

44 Horton St., Dayton, Ohio.

Notice of Sale of Pike Bonds

Sealed proposals will be received at the office of the Auditor of Licking County, Ohio, at Newark, Ohio, until one o'clock p. m., on

Wednesday, the 9th Day of July, 1913, for the purchase of Bonds of said County in the aggregate of Fifty-one Thousand (\$51,000.00) Dollars, dated August 1st, 1913, in denominations of Five Hundred (\$500.00) Dollars, payable three (3) Bonds February 1st, 1914, 1915, 1916 and 1917, and four (4) Bonds August 1st, 1918, 1919, 1920, 1921, 1922 and 1923, and three (3) Bonds February 1st, 1924, 1925, 1926, 1927 and 1928, bearing interest at the rate of five (5) per cent, payable semi-annually, the first interest due February 1st, 1914.

Both principal and interest, being payable at County Treasury. Delivery of said Bonds to be at County Auditor's office on or before the first day of August, 1913.

Said Bonds are issued by the authority of sections 7407 to 7463, inclusive, General Code of Ohio, and under and in accordance with the resolution of the Board of County Commissioners adopted on the 7th day of June, 1911, and for the purpose of improving, by grading and macadamizing the road running from Granville through Alexandria, Johnstown, and to Croton, a distance of about fifteen miles, and known as the Granville and Croton Road.

Said Bonds will be sold to the highest and best bidder, for not less than par and accrued interest. All bids must state the gross amount of bid and accrued interest to date of delivery.

Conditional bids will not be considered. Bids to include furnishing blank bonds and coupons.

All bids must be accompanied by a certified check or lawful money in amount equal to ten per cent. of the amount bid, payable to the President of the Board of County Commissioners.

Upon conditions that if the bid is accepted, the bidder will receive and pay for the Bonds awarded to him upon delivery thereof; said check or money to be retained by and to become the property of the County if said conditions are not fulfilled, otherwise to be returned to the bidder.

As these Bonds are the third installment of Bonds on County pikes, the bidders will be required to satisfy themselves of the legality of the issue of said Bonds.

The Commissioners reserve the right to reject any and all bids and endorse "Bids for Pike Bonds."

Wednesday, the 9th Day of July, 1913, for the purchase of Bonds of said County in the aggregate of Twenty Thousand (\$20,000.00) Dollars, dated August 1st, 1913, in denominations of Five Hundred (\$500.00) Dollars, payable two (2) Bonds February 1st, 1914, 1915, 1916, 1917, 1918 and one (1) Bond August 1st, 1919, 1920, 1921, 1922 and 1923, and two (2) Bonds February 1st, 1924, 1925, 1926, 1927 and 1928, bearing interest at the rate of five (5) per cent, payable semi-annually, the first interest due February 1st, 1914.

Both principal and interest, being payable at County Treasury. Delivery of said Bonds to be at County Auditor's office on or before the first day of August, 1913.

Said Bonds are issued by the authority of sections 7407 to 7463, inclusive, General Code of Ohio, and under and in accordance with the resolution of the Board of County Commissioners adopted on the 7th day of June, 1911, and for the purpose of improving, by grading and macadamizing the road running from Newark east to the Lick, a distance of about fifteen miles, and known as the Newark and Zanesville Road.

Said Bonds will be sold to the highest and best bidder, for not less than par and accrued interest. All bids must state the gross amount of bid and accrued interest to date of delivery.

Conditional bids will not be considered. Bids to include furnishing blank bonds and coupons.

All bids must be accompanied by a certified check or lawful money in amount equal to ten per cent. of the amount bid, payable to the President of the Board of County Commissioners.

Upon conditions that if the bid is accepted, the bidder will receive and pay for the Bonds awarded to him upon delivery thereof; said check or money to be retained by and to become the property of the County if said conditions are not fulfilled, otherwise to be returned to the bidder.

As these Bonds are the third installment of Bonds on County pikes, the bidders will be required to satisfy themselves of the legality of the issue of said Bonds.

The Commissioners reserve the right to reject any and all bids and endorse "Bids for Pike Bonds."

A 200 MILE AUTO RACE IN COLUMBUS

An event in motoring circles will be the 200 mile race to be held at Columbus July 4, under the auspices of the Columbus Automobile club. It is the third annual race of that kind. The sum of \$3,000 has been hung up as a purse and in addition there will be a number of trophies donated.

The track of the Columbus Driving Association where the race will be held, holds the records of all distances between 75 miles and 200 miles. It is also the first dirt track to stage a 24 hour race.

In all there will be 12 starters. In order to allay the dust, the committee will spread 30 tons of calcium chloride over the track.

Among the starters will be Spencer W. Hart in a Mercer. There will be several foreign cars in addition to the Snodgrass, the car driven by Adams. In all probability, the Sunbeam, the English car, will be one of the starters.

Woman's clubs. This blind woman is one of the many blind home workers who have made some of the useful household articles which are now being shown in Newark this week. The state provides the instruction and raw material and the blind home worker receives all the proceeds above the cost of the material as soon as she returns the articles to the headquarters of the Commission in Columbus. As there is no margin left for selling the things in the usual way, the Mazey company has given the space in their store, free of expense to help in the sale of these well made articles. What are you doing to aid this worthy cause? Why not buy some presents made by the blind?

GEORGE HASLOP, FORMER BAD MAN OF NEWARK, NOW AN EVANGELIST, VISITS THE SCENES OF HIS YOUTH

George Haslop, years ago known as the original bad man of Newark, is in town again. This time Haslop is here as an evangelist, preaching the faith of the Church of God, of which he is an ordained bishop, and illustrating the power of prayer as a healing agency for the sick and afflicted.

Twenty-five years ago every policeman in Newark carried a warrant for George Haslop. A few years later he was recognized as one of the all-around bad men of the west. From New York to the Pacific there were few who did not know George Haslop as a big, burly ruffian, eager to lead in any kind of a hold-up from a petty theft to a robbery of bigger proportions.

It was George Haslop who, loafing around "Bottle" Meyers saloon in Pacific street, "Prisco," lacked the price to pay for a round of drinks, and being unable to get credit, walked out and grabbed a prosperous looking pedestrian, relieved him of his bulky purse, and coolly resumed his fun with the boys. It was the same George Haslop who personally visited the governor of Colorado twenty years ago and as he puts it "laid a little out of prison for fifty dollars." It was the same George Haslop who was accosted by a hold-up man in a wealthy residential section of Needles, Calif., and in the face of a drawn revolver told the "stick-up" he was a fool, adding: "Go on your way. I'm workin' this end of the street."

Today he carries the scars that came when bad men met bad men. It was in Los Angeles. An enemy met Haslop and had the "beat" on him instantly. Haslop knew his own temper and refrained from cursing a gun for that reason. But he was ready for fight, as usual, and waded in. The result was that Haslop, despite an opened skull, a pair of bullet holes through his cheek and a broken arm, whipped his man until he said "Enough."

In the early days of Newark—a quarter century ago Haslop was known as the bad boy of the county. He went so far with his pranks that one stuttering policeman who attempted to arrest him on the canal bank, landed in the canal head first and left the town, never to be heard of here again. Haslop was strong and spry in those days and he could do such tricks with ease.

He told an Advocate reporter of one escapade. He said he was working in the country with "Bill" George, planting corn on the farm of Aaron Vanatta. "Bill" became annoyed when George persisted in tramping on his sore feet, and slapped the youth. George swore vengeance and threatened to shoot "Bill." He got a shotgun loaded, went after his man, and gave him the contents of the gun in the legs. Then it was that Haslop decided to prepare his defense, so he cut his own flesh with a whip, accused "Bill" of doing it, set up a plea of self-defense and was released.

On one occasion when Constable Joe Anderson was looking for George Haslop, the wily George had introduced himself to the constable's niece as a nephew of Jeff Davis, of southern Confederacy fame. Under the name of Davis, Haslop drove around with Constable Anderson while the latter was searching for the notorious George Haslop. On one such trip, George espied his mother standing in front of the grocery that stood then on the site

of the City Drug Store. He called the constable's attention to that "fat old lady over there," jumped from the rig and hid behind one of the trees in the courthouse park.

But it's a different George Haslop today. Seventeen years ago in a mission in Los Angeles, Calif., Haslop became converted to religion. He reformed and began traveling about the country in evangelistic work, making restitution of his wrongs personally, until he covered the territory as far as possible. Among other things he did was to write a confession to the Colorado governor, begging his forgiveness for his deception in aiding in the release of the "lifer" some years previous.

Haslop's headquarters are at 2525 Gaunt street, Cleveland, Tenn., where he was ordained bishop of the Church of God, he conducts his evangelistic work when not traveling through the country. He was here visiting at the home of Arthur Stultz, transferman, 281 Channel street. Thursday he left for a week's campaign in Cincinnati, from where he goes into the Kentucky mountains for a thirty-day fast.

He carries credentials with him to show the nature of the work he has done. Says he: "I am living now for God and my only ambition is to do His work and make restitution for the wrongs of my wild youth. People say I have healed them. That is wrong. I only pray for them. Jesus heals them."

Haslop accepts no remuneration for his healing. His credentials include newspaper clippings and official documents proving some truly wonderful cures by power of prayer. He carries a pocket Bible with him all the time and frequently addresses gatherings on the streets. He is 51 years old and was born in Newark, was reared a happy-go-lucky "man of the road."

RAILWAYS WIN IN CREAM CASE AGAINST ROADS

(ASSOCIATED PRESS TELEGRAM) Columbus, O., June 12.—In the case of the Western Ohio Creamery company of Greenville, O., against the Dayton and Union Railroad company, the Cincinnati Northern Railroad company, the Cleveland, Cincinnati, Chicago and St. Louis Railway company and the Peoria and Eastern Railway company, the public service commission today held that cream was worth from three to four times an equivalent amount of milk and that the railroad companies were justified in charging higher rates for the transportation of cream.

The creamery company had complained of the existing rates on cream, claiming that they were unreasonable and excessive.

AIRSHIP MET WITH ACCIDENT

(ASSOCIATED PRESS TELEGRAM) Farnborough, England, June 12.—The British army airship Astra Torres met with a serious accident at its first trial here today. The envelope sprang a leak and part of the frame work buckled up.

The crew, however, managed to bring the airship safely to earth and none of them was injured. The trial took place in the presence of thousands of spectators.

SLUMP OCCURS IN NEW HAVEN AND HARTFORD STOCK

(ASSOCIATED PRESS TELEGRAM) New York, June 12.—A decline in New York, New Haven and Hartford stock to 99½ shortly before noon was the feature of today's otherwise strong market. The decline represented a new low record for that stock and a loss of 3 points from yesterday's close.

No news accompanied the slump in New Haven, but it was assumed to represent further liquidation on the part of the discouraged stockholders.

MILLHENNY REAPPOINTED.

(ASSOCIATED PRESS TELEGRAM) Washington, June 12.—John A. McIlhenny was today designated by President Wilson as president of the civil service commission. Mr. McIlhenny was the only one of the old commissioners retained.

WOMAN LECTURER BY STATE BOARD OF AGRICULTURE

(ASSOCIATED PRESS TELEGRAM)

Columbus, O., June 12.—For the purpose of creating interest and stimulating pride in the appearance of property in Ohio, the state board of agriculture has employed Mrs. Josephine Nesbitt, of Northampton, Clark county, to address Women's clubs of the state. Mrs. Nesbitt will spend practically all of her time doing this work.

According to the plan of the state board, Mrs. Nesbitt will make direct appeals to the women's organizations urging them to beautify their own lawns and premises and also to influence municipal officials in a manner that will result in creating a civic pride. There is not a city in the state that will not be benefited by the plan, it followed, according to A. P. Sandles, secretary of the board of agriculture.

It was announced today that Mr. Bryan would speak at a meeting of the committee of one hundred on Sunday night on the subject of slum elimination. Among the other speakers on that occasion, it was announced will be Representatives Kahn and Kahn of California.

100,000 BUSHELS OF POTATOE MAY BE GIVEN CHARITY

(ASSOCIATED PRESS TELEGRAM)

Minneapolis, Minn., June 12.—One hundred thousand bushels of potatoes said to be spoiling on the tracks here, may be turned over to charitable institutions. A Minneapolis produce company has appointed a committee to confer with railroad officials today on the proposition of giving the potatoes to charity providing the roads will cancel the freight charges. The extraordinary congestion of old crop potatoes is said to be partly due to the arrival of new potatoes from the south. Yesterday the price dropped continuously throughout the day and there were but few buyers.

GRAND VIZER BURIED TODAY IN MAUSOLEUM

(ASSOCIATED PRESS TELEGRAM)

Constantinople, June 12.—The assassinated grand vizier, Mahmoud Scheffer Pasha, was buried this morning in the mausoleum situated in Hilan Liberty in the outskirts of the Turkish capital. On this hill many of his soldiers fell while he was leading them in the operations against Constantinople in April, 1909, when the old sultan, Abdul Hamid was deposed. The funeral ceremony today was carried with great pomp, most of the garrison of the city participating.

NEW STATE ARMORIES.

(ASSOCIATED PRESS TELEGRAM) Columbus, June 12.—By action taken by the state armory board today, new armories will be constructed by the state at Ottawa and Warren, at a cost of 20,000 each. In order to secure the appropriations, both cities have complied with the law by deeding building sites to the state.

Steel your floor against the stamp and tramp of tots in the playroom and grown-ups in the living room.

Coat-of-mail it—case-hard-en it—armor-plate it against attacks of little tootsies and full-grown feet.

Here's the recipe:

SPARTANA

(Formerly Called Spartan Stain)

It's a wonderful beautifier, a phenomenal wear-resister. Dipped in Spartana your brush becomes a magic wand. It gives a rough-neck floor a handsome hard-wood effect; it gives a hard, elastic surface to all woodwork in any color desired. It resurrects and renews discarded furniture; brings back to life wood surfaces that are dead and dull.

You need Spartana in your library, in your parlor, in your dining room, in your bed room.

You can use it yourself or direct your painter to use it.

Get a can and get busy.

BUILDING BRAINY MEN

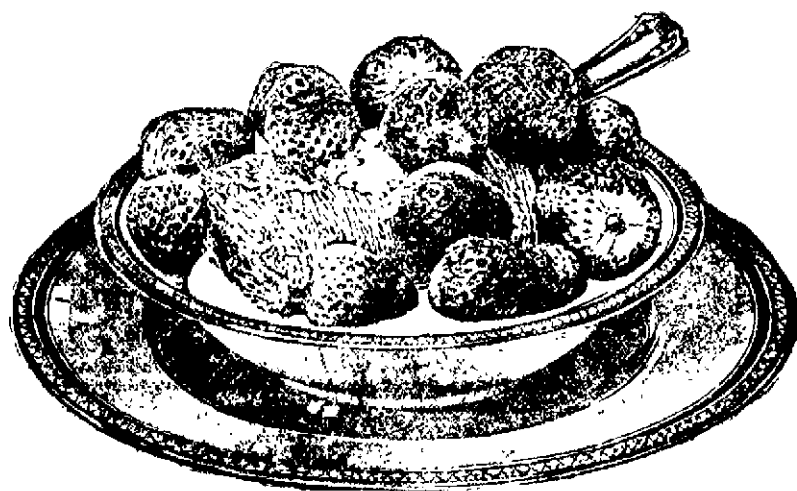

Perhaps you can't build brains with food alone—but a food that supplies, in digestible form, every element needed to build a perfect human body must help some—and that's the reason, no doubt, that cereals have taken the place of desserts in the students' dining hall at Harvard University. The food to study on, to work on, to grow on, is

Shredded Wheat

contains all the body-building material in the whole wheat grain made digestible by steam-cooking, shredding and baking. It forms

deliciously nourishing desserts when combined with berries or other fresh fruits.

Two Biscuits, heated in the oven to restore crispness, and then covered with strawberries or other fresh fruits and served with milk or cream will supply all the nutriment needed for a half day's work or play.

IN SUCH PAIN WOMAN TORE HER CLOTHES

Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Malone, N. Y., — "Lydia E. Pinkham's Vegetable Compound has certainly done me a lot of good. I first heard of it when I was a girl and I always said that if I ever had female trouble I would take it."

"I suffered from organic inflammation and would have spells when I would be in such pain that I would tear my clothes. One day my husband got the neighbors in to see what the matter was but they could not help me. My first thought was for Lydia E. Pinkham's Vegetable Compound and I sent my husband out for it and took it until I was entirely cured. I am a woman of perfect health and my health and happiness came from Lydia E. Pinkham's medicine. You may rest assured that I do all I can to recommend your wonderful medicine to my friends." — Mrs. Fred Stone, Route No. 3, Malone, N. Y.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

His success has been remarkable in Chronic diseases of all kinds. Diseases of the eye carefully treated and glasses fitted.

NERVOUSNESS

Without question the most difficult condition to successfully treat is that known as Nervousness. Nervousness is a result of many things, but when such cases are once fully developed, it is dangerous to allow them to go on without treatment. Opium, Chloral, Morphine and Cocaine are often employed to relieve nervous conditions. These deadly drugs are simply stimulants that have no curative effect. Dr. Weist has several remedies that have proved a boon to such sufferers. When the Nervous system is a person is unfit for anything, if your nerves are afflicted, better common sense treatment without delay.

DISEASES OF WOMEN

Disorders peculiar to Women weaken the body and mind. If neglected they drain your vitality and your life becomes miserable and unhappy. The correct treatment is soon found. It is a woman's relief is at hand. How many hundreds of Women endure what have been neglected, minor troubles which make early have been neglected in the beginning, but now aggravated to such an extent that they become dangerous.

It is high time to consult a Physician who really understands your case. You have suffered long enough. No matter what Doctors have given you your case is hopeless, you need not despair. Dr. Weist has several remedies that have proved a boon to such sufferers. When the Nervous system is a person is unfit for anything, if your nerves are afflicted, better common sense treatment without delay.

DISEASES OF MEN

Causes of long standing, especially drowsy. Wrong treatment and incorrect diagnosis is often the result in the worst of all times. If you have Syphilis, Gonorrhea, Piles, Foul-smelling Discharge, Urinary Tract, or any other Private Disease, it is highly important that you obtain the services of a Physician who has an established reputation for treating these diseases. Dr. Weist has made a lifetime study of Private Diseases and knows the cause and cure of each and every one. No humbugging examinations necessary. No operations. No hospital treatment. Simply a safe, reliable and sure method of treatment that gives results in a few days. What you want, you have had your case or how long you have suffered. Consult Dr. Weist. His opinion will be worth a great deal to you.

CONSULT DR. WEIST

White Athletic Field to Be Opened Monday

In accordance with the promise made during the campaign for funds to equip Newark's playgrounds, announcement was made Thursday morning that the White Athletic field would be opened to the school children next Monday morning at 8:30 o'clock. No set program or ceremonies will mark the opening but several instructors and supervisors will be on hand to coach the young and old in the use of the apparatus with which the field has been equipped.

While all the equipment is not in position and all improvements have not been made, enough is ready to provide entertainment for hundreds of youngsters. The field has been divided into three parts, next to Eleventh street is equipped with apparatus for the use of children up to the age of 8 or 9 years. The central section is reserved for the girls over this age, while the extreme western end has been set aside for the boys of 10 years or more.

The swimming pool which will not doubt be a popular place of amusement during the hot months, will be ready for use. It is located at the extreme southwest corner of the grounds. A bath house has been constructed and dressing rooms provided.

ing as marshal, formed on the campus just north of the Doane Academy building and marched down the hill to the Baptist church. After them followed the Doane Academy students in gay attire, following them proceeded the members of the freshman, sophomore and junior classes in their respective order. Immediately following them under graduates came, and the members of the alumni according to class rank, starting with the most recent graduates.

The remainder of the procession was composed of the seniors in cap and gown, the board of trustees, Dr. Hunt and President Peters of the board.

Throngs of spectators crowded their path to watch this annual event which is most impressive of the year in Granville. Many of these people were from the adjacent districts and others had journeyed for miles in order to be present on this occasion.

On entering the church the graduates filed down the aisles to their places on the large stage with faculty and trustees to the tune of "The Marseillaise," by Wagner played on the organ. Miss Benedict and immediately following the invocation the following program took place:

Invocation — "The Greater Sacrifice"

Raymond Cecil Moore

Essay — "Like Thy Shadow"

Margaret Elma Steere

Specialist — "The Breadth of the Specialist"

Raymond Russell Weaver

Music — God shall wipe away all tears — Harker

Outside the Curriculum — Carl Richter Babb

Essay — "Geographic Environment and Religion" — Edith May Southall

Oration — "Do We Believe?"

George Ferguson Pinnie

Music — "Gloria" — Buzzi-Pecia

(Violin Obligato by Professor Bielefeld)

Dr. Hunt then conferred the degrees and awarded the following prizes to the eager recipients. The Irene McNutt first prize for the best history of Shephardson and the second prize to Freeman Essex. The winners of the annual Lewis Prize contest between the Franklin and Calliopean Literary societies were, Elbert L. Babb of the Calliopean society of Xenia, \$10 for the declamation, "King Robert of Sicily"; Freeman Essex of Troy, Wis., also a member of the Calliopean society was the recipient of \$20 for an essay entitled "Self Interest as a Hindrance to Good Citizenship"; Raymond C. Moore of Beaver Dam, Wis., oration, "The Message of the Heretic"; debating, George F. Pinnie of Newton on Ayr, Scotland, first prize and also first prize for the Sampson Talbot Scripture Reading contest. Mr. R. C. Moore ranked second in the scripture reading contest.

After the announcements made by Chairman Peters Dr. Hunt, the retiring president, was presented with a magnificent silver loving cup by the alumni. President Brierly of the alumni made the presentation speech and eloquently stated the appreciation of the efforts of Dr. and Mrs. Hunt in the behalf of Denison. He said: "The loving cup was full to the brim with the love, prayers, good will and wishes of Denison."

Dr. Hunt responded by a few words in which he expressed appreciation and gratitude. The alumni dinner followed.

Degrees Conferred.

Degrees were conferred on those outside of the student body as follows:

Doctor of Laws — Charles T. Thompson, Minneapolis.

Doctor of Divinity — Rev. James M. Steffer, Evanston, Ill.; Rev. Harry W. Vincent, Toledo, O.

ed. A natural pool has been utilized for this purpose and competent instructors will teach the art of swimming to the youngsters.

Special arrangements have been made to provide amusements for the little ones of tender years. Kludergarden swings with special attachments so the kiddies will get beneficial exercise while being amused have been provided. These swings are so constructed that it is impossible for the occupant to fall out.

Swinging rings, teeter-totters, giant strides, flying rings and other interesting apparatus with tennis courts, basketball and volley ball courts will provide space for all the children who seek pleasure in this field. The track, the ball diamond and football gridiron have not been placed in condition, but this work will be taken care of as rapidly as possible and before the middle of the summer the entire field will be ready for use.

As soon as the White field is in good working order, the Heisey field will be equipped and opened. This will occur about 10 days later. The Heisey field adjoins the Indiana street school building and is much smaller than the White field. It will not require much time to place the equipment in position.

INDETERMINATE SENTENCE FOR SAFE BLOWER

George Winslow, Implicated in Granville Job Pleaded Guilty Before Judge Fulton.

George Winslow, last of the quartet held for blowing the safe of the Buxton jewelry store in Granville in March, was sentenced to the Ohio penitentiary by Judge Fulton late Wednesday. Winslow was the first to be sentenced from this county for an indeterminate period as provided by the new law.

His former plea of not guilty was changed to one of guilty. Winslow's three companions in the Granville job were also indicted by Prosecutor J. Howard Jones to plead guilty, thus saving the county the costs of prosecution.

The prisoner was taken to Columbus Thursday by Sheriff Slabaugh.

\$500,000,000 Emergency Currency Available

(ASSOCIATED PRESS TELEGRAM)

Washington, June 12.—Secretary McAdoo, an early White House caller today, said that his statement announcing that \$500,000,000 of emergency currency would be forthcoming should banks need it, was made in response to numerous inquiries from bankers. Mr. McAdoo declared that some of the banks were anxious to know in view of the approaching time for crop movement whether additional currency would be available. He emphasized that the issuance of the statement had nothing to do with the situation in Wall street.

The treasury department it was stated today had been informed by bankers within the last few weeks that some emergency might be experienced in moving the crops if they had assurance that relief could be had under the provision of the Aldrich-Vreeland act, they would be able to meet that situation and that it would be of great value to business generally if they were informed now of the department's attitude.

New York, June 12.—Secretary McAdoo's overnight offer to issue emergency currency completely surprised the financial district. None of the bankers would express an opinion in the subject but it was clear that the secretary's announcement was interpreted, even before his explanatory statement of today as an act to reassure the legitimate interests of the country, especially those of mercantile and industrial character.

Local bankers believe that the offer will have the effect of realizing large amounts of money, in which a severe stringency has threatened.

No later than yesterday over-year money was utterly lacking in this market, while the rates for four, five and six months hardened perceptibly.

One of the results of the proposed measure was a sharp rally in stocks today and stock exchange houses reported better investment demand than at any time since the recent depression.

No small part of the inquiry came from out of town sources, where the effect of Secretary McAdoo's announcement appears to have been received with greater encouragement than in local circles.

BOY IN KNEE PANTS GOES TO PEN FOR LIFE

Aurora, Ill., June 12.—A boy in knee pants who looked like the average run of boys 12 to 13 years old and wearing the embarrassed grin of the lad who has been called in from play "to speak his piece for company" stopped in Aurora today on his way to the Joliet penitentiary, where just after 10 o'clock he began a life sentence for the recent murder of a woman and two babies.

The boy was Herman Coppes, 14 years of age, who last April shot and killed Mrs. Manie Sleep at her farm home in East Plato, near Elgin, and brainied her two children, a boy of two years and a girl of four. He is the youngest life prisoner who has ever entered the state prison.

THE ORCHESTRA COMPOSED OF THE MUSIC PUPILS OF THE SCHOOL RENDERED A NUMBER OF BEAUTIFUL SELECTIONS.

This evening at 7:30, at the church, after an address by Rev. L. W. Mulhane, a noted lecturer and educator, the diplomas will be given to the graduates by the pastor, Father O'Hoyan. The Reverend Fathers Waterson, Dunne, O'Brien and Ryan will assist in the services.

"HITCHIE-COO" IS INTRODUCED BY THE DANCING MASTERS

[ASSOCIATED PRESS TELEGRAM] Atlantic City, N. J., June 12.—The "Hitchie-coo" a combination of the "one step" and "tango" with a graceful kick as the final feature of each set, was introduced as the latest dance creation at the annual convention of the International Dancing Masters' association in session here.

F. W. Scott of Michigan, the oldest dancer in attendance, declared that this dance was the latest and best and should be prohibited by legislation. There is nothing bad about the new dances if they are danced correctly, but they seldom are.

ATHLETES OF Y. M. C. A. WILL RUN 25 MILES

A cross country relay race will be run tomorrow from Newark to Mt. Vernon by 50 members of the Mt. Vernon Y. M. C. A. These 50 athletes will be distributed along the course by automobiles and will be picked up by same on the return. The race will start at 2:30 p. m. from the square. Mayor Swartz will write a message to the mayor of Mt. Vernon which will be carried by the fellows running the race. As the distance between Mt. Vernon and Newark is 25 miles each fellow will be required to run a half mile. Their object will be to see in how short a time they can make the distance. At the conclusion of the race the mayor of Mt. Vernon will read the message sent by Mayor Swartz and deliver an address to the athletes and assembled crowd.

MINERS TESTIFY

(Continued from page 1.) testimony of Governor Glasscock the mine operators planned to place in the record their contention that when the militia superceded the civil courts in the strike district the civil authorities had notified the governor that they were unable to cope with the situation.

Urged by their desire to cut as short as possible the hearing at Charleston, the committee members today planned to hear but a few of the small army of witnesses subpoenaed and announced.

John Searchlight, a miner, was the first witness called, and was questioned by Attorney Knight, regarding the Mucklow Hill battle.

"How many men were there?" "About one hundred," said the witness.

"Were they armed?" "Yes."

"How many shots were fired?" "Well, I reckon I just couldn't say."

"Didn't you fire any shots?" "Yes."

"With what?" "With a gun."

"Where did you get it?" "I bought it," said the witness, shifting a cud of tobacco and reaching for the committee's official cuspidor.

He explained that he bought the gun "on the road" from a man he never had seen before, shortly after the strike began last April.

Attorney Knight wanted to know who told him to go to Mucklow Hill to attack the town, and where he got his ammunition for his gun. He said he just "happened along there," and that "most of his ammunition he bought in Montgomery."

At this point two questions brought the committee to its feet and resulted in a ruling that the witness need not answer questions tending to incriminate him.

Attorney Knight wanted to know if Walter Diehl had ordered Searchlight to go to Mucklow Hill for the battle and if G. F. Parsons had furnished him and other men with ammunition. Neither question was answered. Attorney Knight urged in vain that he expected to prove a "conspiracy involving men now present before the committee" connected with the Mucklow battles.

BROTHERS QUARREL; ONE THROWN DOWN FLIGHT OF STEPS

Awaiting the outcome of the injuries to his brother Elmer Shaffer, whom he threw down a flight of stairs Wednesday night, Alonzo Shaffer is held at the city prison without bond on a charge of assault, which may be changed before the defendant is arraigned in police court.

The arrest of Alonzo and the admission of Elmer to the Newark Sanitarium as a patient, followed closely on a bit of excitement at the Elmer Shaffer home in Garfield avenue, near O'Bannon, about 1:30 o'clock Thursday morning.

Elmer is the engineer of a road roller on a pike job near Pataskula. In his absence, Alonzo has been making his home at the Shaffer domicile in East Newark.

Elmer returned home last night, according to his own words to the officers, "to see what his wife was doing." The events which followed in rapid succession indicate that he was not satisfied with what he found for the two brothers engaged in a scramble on the second floor of the Shaffer home shortly after midnight.

The husband got the worst of the encounter and was hurled the full length of a flight of steps where he lay groaning from the injuries sustained. Officers who were called because of the scrap, ordered the Hazzler & Bradley ambulance to remove the man to the Sanitarium for treatment. The patrol wagon was called to haul Alonzo to the city prison where he was charged with assault.

ENTERTAINED CROWD WITH A LIVELY SCRAP

Home-going crowds Wednesday evening were entertained with a scrap between Cal Smith, shine artist at the Tiescher barber shop and William Underwood, a newcomer in Newark. Both are colored. The two men were taken into custody by the police and lodged at the city prison on a charge of fighting. Each drew a fine of \$5 and costs. When arraigned in police court Thursday morning, Smith paid the costs and the fine was suspended. Underwood was given a scant thirty minutes to shake the dust of Newark from his feet. He was making tracks for the city limits when he passed from the view of the police court spectators.

Thursday afternoon Elmer appeared before Mayor Swartz and filed an affidavit against Alonzo. The charge contained in the affidavit is assault.

THE DESIGNER....FOR JULY IS READY FOR DISTRIBUTION AT PATTERN SECTION. VARIETIES AND VALUES IN WOMEN'S AND MISSES' BRAND NEW WEARING APPAREL WERE NEVER GREATER BECAUSE OF OUR MANY RECENT FORTUNATE PURCHASES

At no season of the year, nor for many seasons previous have we been so fortunate in making so many fortunate purchases in Women's and Misses' brand new Suits, Coats, Dresses, etc. And why did we make these purchases? Because the garments were of such a high standard of style and quality, tailoring so perfect and prices quoted us so low that to refuse these manufacturers' offers would be a poor business policy. And again, as we buy, so do we sell. Therefore, to serve yourself well, we suggest that you make a visit here. See these beautiful smart ready-to-wear garments, examine them, try them on, and then you can just begin to realize the greatness of their value. Again we suggest that you come some time this week.

JAMES WAS WILLING TO LEAVE CITY

Liberty is sweet to James Waddell, colored, who has been a frequent defendant in police court here in the past few months. He readily agreed to the order of Mayor Swartz to leave the city in one hour if he was released from custody after being arrested on a charge of visiting a Railroad street resort. Waddell was released two days ago but was picked up again Wednesday night. He claimed that he wanted to collect \$4 witness fees from the local courts before he left the city and he agreed to consume not more than one hour in making the collection.

SITE OF OLD MINT BRINGS GOOD PRICE

[ASSOCIATED PRESS TELEGRAM] Philadelphia, Pa., June 12.—The site of the old mint in this city which was sold by the United States government to a syndicate for \$2,000,000 in 1901, payment being made in installments, changed hands yesterday for a consideration represented to be \$4,000,000.

MASONIC TEMPLE CORNER STONE LAID JUNE 24

The work of preparing for the laying of the corner stone of the new Masonic temple on June 24 is progressing very satisfactorily. Invitations have been sent to the grand master and the grand lodge and it is expected that there will be a number of Masons of high degree present on that occasion. The ceremonies will be under the auspices of the grand lodge and will be solemn and impressive. All the Masonic bodies of the county will be represented and participate in the exercises and there will be a large attendance of the members of that fraternity from all sections of the state, particularly from central Ohio.
